

Earth Light

ANCHOR CERAMICS

LIGHTING 2020

Anchor Ceramics explores the dimensional possibilities of clay. The studio makes ceramic objects that enrich the senses and our quality of space. We consciously design and form objects to evolve with use. Our work is elemental, connected to people and the earth.

ANCHOR CERAMICS
EARTH LIGHT

The Earth Light's strong geometric form is simple and architectural. Each fitting is thrown by hand on a potter's wheel which gives every light a unique quality and a surface rich with the evidence of its hand made process.

WALL FORMAT - REGULAR
SIDE BY SIDE MOUNTING

Anchor's Earth Light has been developed in both a wall and pendant format; the fitting is the same size in either format allowing it to be purposefully used across a range of environments both domestic and commercial.

After an initial firing, each fitting is finished with glazes developed specifically for our lighting range. A final firing to 1,280° Celsius, matures the glaze and finalises the piece. The Earth Light is currently produced in a range of natural finishes.

The Earth Light range is made by hand on a potter's wheel. Minor fluctuation in size, shape and glaze finish is intentional and an inherent characteristic of a handmade object. The subtle shifts from fitting to fitting give each object we make a unique quality that is only achievable through this kind of making process.

SPECKLED WHITE
WALL FORMAT - REGULAR

The Earth Wall Light is available in two sizes; regular and large. Both sizes have the same strong architectural form and are produced in the glaze finishes developed for the Earth Light range. The mounting bracket, lamp holder and other technical requirements are the same for both sizes of wall light allowing for an easy interplay between the regular and large sizes.

WALL FORMAT - LARGE

A recent addition to the range of glazes available for the Earth Light, the Olive Green finish is an outcome of the ongoing glaze research and development undertaken at Anchor. The deep green glaze presents a surface rich with subtle fluctuations in colour and varying iron speckle. The resulting finish produces a soft sheen to the final form.

PENDANT FORMAT

The regular size Earth Wall Light and Earth Pendant are handmade to the same finished dimensions. The capacity to interchange between formats allows for a variety of installation configurations comprising both wall lights and pendants.

SATIN WHITE
WALL FORMAT - REGULAR

SATIN WHITE
WALL FORMAT - LARGE

The Satin White glaze finish pictured adds a satin finish to the range of whites and neutrals we currently produce. With a gently speckled finish and subtle sheen to the surface, the Satin White finish is a recent addition to the Earth Light glaze offering.

WHITE GLAZES

The addition of the Satin White glaze to the Earth Light family expands the range of white glaze options. Satin White introduces a satin sheen level with a speckled finish. This finish complements the existing Pure White and Speckled White glazes offering a subtle range of glaze finish, surface feature and sheen level options.

PRODUCT SPECIFICATION

NAME: Earth Light
DESIGN: Anchor Ceramics
TYPE: Internal wall mount or pendant

MATERIAL: Wheel thrown ceramic
LIGHT SOURCE: 1 X Gu10 Lampholder // 240V // LED globe is recommended. Do not use a halogen globe in this fitting. Globe not supplied.
WALL MOUNT: Powder coated aluminum bracket // Regular size approx. weight 1.00KG // Large size approx. weight 1.70KG
PENDANT: 1.5m Braided cotton or linen flex // Seamless canopy in black or white // Additional flex and cable available // Approx. weight 0.8KG

NAME: Earth Light
DESIGN: Anchor Ceramics
TYPE: IP65 External wall mount

MATERIAL: Wheel thrown ceramic
LIGHT SOURCE: LED/ 1 x Tridonic LED Module per fitting // 15V remote install converter 6.3W // 700lm // 3000K // CRI 80
DIMMING: Phase-Cut // 1-10V // Optional - DALI
