ANCHOR CERAMICS

LIGHTING 2019

designnation.com.au

Anchor Ceramics explores the dimensional possibilities of clay. The studio makes ceramic objects that enrich the senses and our quality of space. We consciously design and form objects to evolve with use. Our work is elemental, connected to people and the earth.

Designed by Bruce Rowe,
FLUTE builds on the
exploration of material, form
and process within the Anchor
Ceramics studio. The bold,
curved face and fluted sides
harmonise to create a visually
powerful and tactile fitting.

ANCHOR CERAMICS
FLUTE

The Anchor studio continues to expand its range of making methods and explore the design possibilities of clay.

FLUTE is produced through a process of design thinking, traditional techniques and contemporary tools.

NATURAL

Australian clay bodies are used to make FLUTE. The colour palette offered includes natural, dark grey, charcoal and white. The glaze finishes have been carefully tested and refined to enhance the material beauty of each clay body.

CHARCOAL

FLUTE has been designed and handcrafted in the Anchor studio in Melbourne, Australia. Minor fluctuation in size, shape and glaze finish are inherent characteristics of a handmade ceramic object. The subtle shifts from fitting to fitting give each object a quality and lasting value that is only achievable through this particular making process.
