Galileo

design Studio Pastina

Con un disegno che rievoca suggestioni astronomiche, Galileo rielabora il tema del tavolo bistrot con base centrale. Le gambe sottili convergono in un unico elemento che sorregge con eleganza geometrica il piano d'appoggio. Disponibile nelle varianti con piano circolare o quadrato e in quattro altezze, Galileo si propone come soluzione di grande versatilità, grazie anche alle numerose varianti colore.

With a hint of astronomy in its design, Galileo revisits the idea of a bistro table with central column. Its slender legs converge stylishly and geometrically to support its table top. Available at four heights and with square or rounds tops, Galileo can slot into all kinds of settings thanks also to its wide choice of colourways.
