

## iO<sup>2</sup>

The iO<sup>2</sup> Pendant Lights are the squared development of the original iO lighting range. All of iO's beauty remains, but with a new angle on things, giving a different effect and feel while increasing versatility.

The iO<sup>2</sup> Pendant Lights have become extremely popular over dining room tables, kitchen workbenches, and are often used in a commercial setting, over the bar of restaurants, cafes and pubs.

The interlocking sections of the iO<sup>2</sup> Pendant Lights allow almost limitless size variations. There are six standard sizes that will suit an array of situations. Custom sizes can be made on request.
