# SAYA

RP-E-1810

Saya: pared back luxury, indoor and outdoor.

Saya studies the similarities and differences between classic and contemporary design languages, refreshing archetypal domed lighting forms with uncompromisingly refined detailing. Two precisely sized pendant offerings and two subtly different wall forms unite a low profile silhouette with luxurious tumbled brass hardware and integrated LED technology.

Saya brings refined beauty and minimalism to hospitality venues, residential and commercial settings alike.

All Saya models are weather sealed, bringing elegant lighting to both interior and exterior dining and entertaining spaces.

# RAKUMBA DESIGN TEAM

The phrase ‘Making Beauty’ truly represents why we do what we do. We’re passionate about lighting and about authentic design.

Rakumba’s design team is focused on beauty, detail and going beyond the ordinary. Rakumba Design is present at every stage of making the beautiful decorative lighting we offer.

Our people all contribute to the design thinking behind our products, ensuring that the collaboration we value reflects individual expertise and experience. We collectively solve problems and manage risk through a design-led approach, which is critical to our advancement and progress in lighting design, manufacturing and technological integration.

We think it’s important for every product to have its own story. We concentrate on narrative and form, materiality and manufacturing techniques. It’s all part of our ethos of uncompromisingly driving for perfection, achieving complex products that appear effortless.

At Rakumba, design is critical to making beauty.
